

MIAMI BRIDGE WEEKLY NEWSLETTER

158 Days are
Remaining on the
Bridge Closure

QUICK NOTES:

- Revised plans for Bent 3 have been forwarded to OCCl.
- No restrictions to the navigational channel are expected next week.

Bridge Update

Girders between Piers 5 & 6

Piling at Bent 1.5

Piling at Bent 1 (South Bridge Abutment)

As pictured above, OCCl completed the first falsework tower between Piers 5 & 6. It didn't take OCCl long to get use out of the tower as girders already span from Pier 6 to the first tower. The casing for the second tower can also be seen at the left of the picture.

OCCl has been putting a lot of their focus on the south side of the bridge. The piling has been driven, cut to grade, and the subgrade prepared for the work platform at Bent 1 (pictured bottom). OCCl also drove piling for Bent 1.5 (pictured middle).

OCCl is also preparing the north end of the bridge for stay-in-place deck forms.
